Dear Jesse:

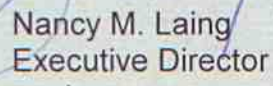

RE: DATA SUPERHERO SECURE BACKUP

Leduc Foundation has been using the Data Superhero Secure, Off Site Data Backup service since January 25th 2007. The service has provided peace of mind that our data is secure and always available.

The importance of this was brought home when our payroll program recently crashed and we needed to restore from the off-site backup. Data Superhero staff responded immediately to restore our data which allowed us to pay our staff on time.

Many thanks to Data Superhero, they truly did "save the day".

Sincerely yours,
LEDUC FOUNDATION

Nancy M. Laing
